ORNAMENTALS

CITRUS

ROSES

ESSENTIALS IN PLANTING BARERoot ROSES

1. Spread the root system.
2. Use only clean soil in the hole—no manure.
3. Avoid planting too deep.
4. Pack dirt firmly—leave no air pockets.
5. Water thoroughly several days in succession to get the soil settled around the roots.

ESSENTIALS FOR GROWING ROSES

1. Refrain from picking first crop of blooms in order to build up a strong bush.
2. Mulch the rosebed to avoid cultivation.
3. Give food and water throughout the year.
4. Protect foliage constantly against disease and insect damage.
